

PSC Trainees: Please Help the PSC Comply with the NIH Public Access Policy

Include relevant NIH grant numbers in the acknowledgements section of your peer-reviewed manuscripts and/or otherwise supply your publisher with the grant numbers upon completing your publication agreements

For graduate students who have EVER received direct support from the NICHD T32 training grant and/or the NIA T32 training grant: Please cite the NIH T32 HD007242 and/or the NIH T32 AG000177.

(If applicable, please cite the PSC R24 Center Grant for all PSC-administered research: NIH R24 HD044964 and/or the PARC P30 Center Grant for all PARC-administered research: NIH P30 AG012836.)

Acknowledgement text (copy text from this page: <http://www.pop.upenn.edu/nih-public-access-policy>):

This research received support from the Population Research Training Grant (NIH T32 HD007242) awarded to the Population Studies Center at the University of Pennsylvania by the National Institutes of Health's (NIH)'s *Eunice Kennedy Shriver* National Institute of Child Health and Human Development.
or

This research received support from the Population Research Training grant (NIH T32 HD007242) from the National Institutes of Health's (NIH)'s *Eunice Kennedy Shriver* National Institute of Child Health and Human Development and from the Demography of Aging grant (NIH T32 AG000177) from the National Institutes of Health's (NIH)'s National Institute on Aging awarded to the Population Studies Center at the University of Pennsylvania.

or

We are grateful to the Population Studies Center at the University of Pennsylvania for general support (NIH grant number: R24 HD044964).

Compliance Begins Before You Publish

- Know the journal/publisher policy **before** you sign publication agreements
- Acknowledge NIH funding
- **Upon acceptance** to a peer-reviewed journal, ensure that your manuscript gets deposited in PMC
- Follow up with journals/publishers to ensure compliance as needed
- The NIH Public Access Policy implements **THE LAW** and it is **CRITICAL** to comply, as funding can be delayed as a result of non-compliance
- The Policy is relevant to everyone who publishes peer-reviewed journal articles that have **at least one author** who has received direct funding from NIH
