for submissions is the applications of new data from digital sources to understand population processes. The deadline for submissions is February 1st. Researchers who study the implications of digital technologies for demographic behavior as well as favor communication and exchange between researchers.

This workshop, organized by Francesco Billari, will take place on February 1-5pm in Denver. This workshop is intended to encourage researchers to:

- Share their findings and methodologies with others.
- Learn about new techniques and tools.
- Network with other researchers in the field.

Participants will have the opportunity to present their work and receive feedback from other attendees.

---

The Pennsylvania Academy of the Arts (PAA) Annual Meeting.

We will begin with an introduction to the speakers and their research. Afterward, there will be a wine and cheese reception where attendees can network and discuss their work.

Wellness at Penn

Wellness at Penn is the university's initiative to promote well-being across the campus. It offers a variety of resources, events, and programs that support wellness for students, faculty, and staff. For more details about the schedule, speakers, and registration, go to the website. Here are some events that are coming up:

- January 26: "Smart Cities: Challenges to Implementing Innovation in" a side event at the 2018 International Population Conference.
- January 24: "Proving Verbal Autopsy and a General Model of Age-specific Mortality" presented by Francesco Billari.

---

Upcoming Events:

- "Introduction to Methods and Applications Using Complex Survey Data: Bayesian Small Area Estimation" presented by Jon Wakefield. (Details here)
- "Proving Verbal Autopsy and a General Model of Age-specific Mortality" presented by Francesco Billari. (Details here)

---

If you have an upcoming event you want to document? Need a new photo for your website? The library staff can create digital products if you need to do something with a certain topic. Let us know where and when you will be there. If you would prefer to take your own photos, feel free to reach out to borrow our camera for your event and/or share the photos you take with us to use on our website.
