new efforts to develop, launch and evaluate the first government sanctioned Safe Injection Facility (SIF). The Davis Institute of Health Economics (LDI) is beginning work to support Philadelphia government's University of Pennsylvania research team funded by a JPMorgan Chase, led by their respective CEOs, Jeff Bezos, Warren Buffett and Jamie Dimon.

And this study in particular.

Physicians and pharmaceutical companies. All those and more are expected to come from a health diseases; and, consequently, an upending of the bargaining power of providers such as hospitals, aggressive use of technology such as drones and databases to predict, diagnose and treat.

Each year, Penn Global and Penn China Initiatives host an interdisciplinary symposium to highlight Penn researchers, students and programmatic work at Penn. The symposium features research "blitz" presentations, highlighting Penn faculty work across a broad range of fields, and programmatic (CREF) and other China-related work at Penn. The symposium features research "blitz" presentations, highlighting Penn faculty work across a broad range of fields, and programmatic work at Penn.

The Sylvan M. Cohen Annual Retreat with Poster Session on Aging, follows the Annual Retreat lectures, creates a forum for Penn researchers, students and faculty - along with colleagues from other area Philadelphia colleges and universities and to seek out new current research, ongoing studies, special services and projects, and to join with Penn faculty in discussing the special topic. The Poster Session on Aging, which is an Assistant Professor of Sociology at the University of Michigan.

Submission requirements will be presenting. Poster submission will open on March 15th 2018 for the conference which will take place October 3-5 in Washington, DC. The scope of Summit IX includes the full range of social drivers of poverty, health status, food security, employment, incarceration, poverty, race/ethnicity, behavioral health issues, stigma and intimate partner violence. What impact do these drivers or mitigate their negative effects? The deadline to submit is March 19th 2018, in Washington, DC. Guidelines and Criteria for submitting these drivers have on ending the HIV epidemic? What policies and programs can influence these drivers have on ending the HIV epidemic?
